## Section 1

### Hard Drive Installation

#### **WARNING:**

This Network Attached Storage device is not hot-swappable. Please make sure that it is turned off and not connected to the power outlet when performing the following assembly procedure.

**Step 1** Unfasten the two screws at the rear side of the device, and pull out the back cover.

**Step 3** Put the 3.5-inch IDE or SATA hard disk into the slot, and connect the proper data cable for your hard drive. (The red cable is used for SATA and the gray one is for IDE).

**Step 3a** IDE

**Step 3b** SATA

**Step 4** Secure the drive to the metal plate on the sides with the provided four screws.

**Step 5** Re-attach the front panel to the device.

**Step 6** Re-attach the back panel to the device and secure it with the two screws removed in step 1.

**Step 7** Connect Office NAS to your router or your computer with the provided Ethernet cable, and connect the supplied power adapter. Plug the power cord into a power outlet.

(Note: connecting this device to your computer directly is not recommended since many features will not be able to function.)

**Step 8** Turn it on by pressing the On switch in the back of the device. Verify the Power and LAN LEDs are lit.

**Congratulations! The hard drive installation is complete. For more information about this product, please refer to the User's Manual in the provided CD.**

## Section 2

### Connecting to Office NAS

**Step 1** To access Office NAS, double-click on **My Computer** or open **Windows Explorer** and then type in “\\airnas” into the Address bar and press Enter.

**Step 2** Click on the **Storage** folder to begin accessing your files and using Office NAS to store/backup your data.

**Step 2** When prompted for a username and password, type in **admin** for the username and **admin** for the password in lowercase letters.

## Section 3 (optional)

### Configuring Office NAS

You can configure Office NAS using either your web browser (Internet Explorer or Firefox) or using the Utility provided on the installation CD.

**Step 1** To use your web browser, open up the browser and in the Address bar type in **http://airnas** and press **Enter** or hit the **Go** button.

**Step 3** Please consult the User's Manual located on the installation CD for more information on how to configure your new Airlink101 Office NAS. For more information on how to use the Utility (optional), please consult **Section 3** in the User's Manual.
